Athletics Carnival
What a fantastic day! Congratulations to our students who behaved in an exceptionally positive manner and to all the competitors who gave it their best on the day. Many students competed in every event really demonstrating the desire to personally achieve as individuals and as part of their house teams. Also thanks to Mr Wakem and Mr Watts for their organisation and the many parents and grandparents who came to support our competitors.

Aerosol cans at school
Just a reminder to all students that aerosol cans are actually banned items in DEC schools. Aerosol cans contain chemicals that may cause asthma attacks and other breathing problems in both students and staff. Please bring a roll on deodorant instead in the interest of everyone’s health. Thank you for your cooperation.

Coleambally Central School’s new babies!
We are lucky enough to have some new additions to the CCS family. The three pygmy goats (triplets) currently onsite have been rejected by their mum the day they were born. They will form part of our petting farm assuming all goes well with their health. Henry (our gold goat) is very interested in them and has taken a father like role in their care. Stage 5 Agriculture classes will be responsible for their immediate care. The new irrigation system will now allow us to plant pasture for our animals. We also thank the P&C for their financial support in setting up stage 1 of the irrigation system.

NAPLAN reminder
Students in Years 3, 5, 7 and 9 will sit their NAPLAN examinations on 12th-15th of May. Examinations will test student progress in Language Conventions, Writing, Reading and Numeracy.

Deadly Australians
Students will soon receive a note in regards to an exciting educational presentation being hosted at Coleambally Central School later this month. Deadly Australians is an entertaining and educational presentation on the unique venomous animals that live in our backyards. Each presentation is personalised, making sure students take away enthusiasm and passion for the animals that live in the Australian bush. It is a highly interactive and hands on presentation. Students will have the opportunity to hold non venomous snakes, lizards and turtles. Any venomous creatures will be under lock and key so the presentation is entirely safe. The Coleambally Learning Community will also view this unique presentation with our pre-school and St. Peter’s students also joining in on the day. More information will follow soon.
